Burnsville, MN. Atrix International announced today, 12/12/07. New HEPA filtered Integrated Pest Management Vacuums. They have immediate containment filter cartridges for easy and safe disposal. The exhaust air is filtered and free of most odors.

The Express Series IPM vacuums come standard with a true HEPA cartridge filter, 6' clear safe hose, 19" rubber flexible gooseneck, a crack and crevice tool, two 20" extension wands, a 25' power cord, and a shoulder strap. All accessories fit neatly in the included deluxe carrying bag. The vacuum can run on 110 or 220-volt electricity. The vacuum is only 4 pounds which makes it very light weight and easy to carry. Suggested retail pricing for the IPM vacuum with filter starts at \$214.00.

The unique 19 inch flexible wand is soft and pliable. It is also ESD Safe, so the vacuum can be used to safely reach in and behind sensitive electrical components, wall boards, rafters or other "hard to reach" places.

Optional equipment includes floor attachments.

Atrix International is a full line manufacturer of fine particulate vacuum products, including HEPA and ULPA filters for the field service, electronics, remediation, abatement industries, and pest management. Their vacuums and filters are available worldwide via a network of authorized distributors.
