

## Atrix International Introduces: ESD Safe model HCTV5

**For Immediate Release**

**From: Steve Zeilinger  
Atrix International  
952.894.6154**

Burnsville, MN. Atrix International announced today, 4-1-03. All HCTV5 vacuums purchased from April 1<sup>st</sup>, 2003 and forward are ESD safe. Atrix has provided a path to ground for dangerous static voltage when using Atrix ESD safe hoses and Atrix ESD safe utensils. Now, on select models, ESD safety from tip-to-tail is built into all four of our vacuum models: Express, Omega, Omega Supreme and HCTV5.

Atrix International is a full line manufacturer of fine particulate vacuum products for the field service and lead/asbestos abatement industries. They produce filtration products that can capture particles from .5 micron to as small as .12 micron. Their vacuums and filters are available worldwide via a network of authorized distributors.
