Burnsville, MN. Atrix International announces (11-25-08) a new HEPA filtered 5 Gallon High Capacity Integrated Pest Management Vacuum. The HCIPM has an immediate containment 5-gallon HEPA filter canister for easy, convenient and safe disposal. The exhaust air is filtered and free of most odors. Excellent for large jobs such as bat guano, roach infestations or general duty cleanup.

The HC Series IPM vacuum comes standard with a true 5 gallon HEPA filter canister, 9' clear hose, hose and intake plugs

to safely contain debris, 16" rubber flexible gooseneck, crack and crevice tool, utility nozzle, two 20" extension wands and detachable 25' power cord. The HCIPM vacuum is available in an 110V or 220V version. Suggested retail pricing for the HC IPM vacuum with HEPA filter is under \$500.00.

The unique 16 inch flexible wand is soft and pliable. It can be used to safely reach around and behind obstacles, including wallboards, rafters or other "hard to reach" places.

Optional equipment includes a backpack and floor attachments.

Atrix International is a full-line manufacturer of fine particulate vacuum products, including HEPA and ULPA filters for the field service, electronics, remediation, abatement, and pest management industries. Their vacuums and filters are available worldwide via a network of authorized distributors.
