**Burnsville, MN. Atrix International announced today, 4-1-03. New ULPA (99.999% efficient at .12 micron) filtration for the Omega and Omega Supreme series of vacuums. New ULPA filter part no. is OF712UL. This is in addition to the OF612HE series of HEPA (99.97% efficient at .3 micron) filters that have been so successful since their introduction in 1995.**

Atrix International is a full line manufacturer of fine particulate vacuum products for the field service and lead/asbestos abatement industries. They produce filtration products that can capture particles from .5 micron to as small as .12 micron. Their vacuums and filters are available worldwide via a network of authorized distributors.
